

# ATOMOXETINE

Helps with focus and concentration, starting and finishing tasks, moving around and making noise or shorting out

Takes 1-2 weeks to start working

Much better after 8 weeks

You might notice other changes. Tell your doctor if you don't like how they make you feel.

You'll need checks for your heart, weight and height

Ask your doctor about stopping

Take in the morning

Tell your doctor right away if you get more angry or upset

Check up every 3 months
