

ATOMOXETINE

Helps with focus
and concentration,
starting and
finishing tasks,
moving around and
making noise or
shorting out

Takes 1-2 weeks to
start working

Full effects
after 8
weeks

Might get less hungry, trouble
sleeping, sore tummy, dizzy,
sore head, tired, find it hard
to poop, and fast or
fluttering heart.

Health checks
for the heart,
weight and
height

Ask the doctor about
stopping

Take in the morning

Tell the doctor
right away if you
notice more anger
or upset, or
thoughts of self-
harm

Check up every 3 months
